Assignment

Construct a web page using HTML, CSS and Javascript according to the following specifications.

1. The page must have a title "Dinosaurs are crazy creatures." The color of this text should alternate after every 2-3 seconds.
2. The page must contain a section with borders and shadows (as can be seen in the screenshots). This section contains an image of the dinosaurs. The image should alternate after every 2-3 seconds automatically.
3. Your page should also be media responsive i.e. the sizes of fonts and boxes should change according to the size of the page.
4. Choose appropriate colors and other related styling for your page to make it look attractive.
5. You may pick any suitable images for your webpage related to dinosaurs.
